DEC 19 2018  
Referred To .....DCO.....

We would like to thank the Cariboo Regional District for their support and providing us with a Capital Expenditure Grant of \$1000.00.

As of today we have completed all projects except one. The kitchen floor has not been finished but is in the works. We were delayed this year by calving ; haying; and fires. A big part of our community are ranchers and everyone was affected by the fires.

At this time the projects completed were the painting; the stage, the back door, the drywall, and the firewall by the heater.

We now have heat in the kitchen area, no draft at the back door and a ceiling that looks amazing. The response from our community has been very supportive and pleased with the improvements.

The Cariboo Regional District has been recognized on our facebook page - Baker Creek Living and a poster at our local store and mailbox.
