CAO Comments:

The Board previously considered a similar letter from Ms. Jack. The following correspondence expands the number of place names. Previously the Board resolved that the proposed change in place names be supported subject to a suitable transition period where both the current name and the proposed name are utilized and that a communication plan be developed to ensure that there is no miscommunication in emergency communications.

We apologize that we missed sending the original correspondence but would recommend that we proceed as the Board previously resolved.
