## SECTION 2: Planning Report

### Background:

It is proposed to rezone 1.36 ha (3.36 ac) within 43.3 ha (107 ac) subject property from Resource/Agricultural (R/A) to Rural 2 (RR 2). The applicants have requested to subdivide the subject property into two lots-one 4.42 ha (10.92 ac) lot and a 41 ha (101.31 ac) lot. The proposed 1.36 ha (3.36 ac) RR 2 lot will be amalgamated with District Lot 692 to create a 4.42 ha (10.92 ac) lot for residential use, and to expand an existing Christmas tree farm. The proposal is shown in Appendix C.

### Location & Surroundings:

The subject property is located adjacent to the Cariboo highway 97 with Hush Lake to the south of the property and an unnamed creek off of Ahbau Creek that runs through the property as shown in Appendix B. Currently, the proposed area is a vacant land covered in pasture with dense tree coverage. There is no access available for the owners to enter the proposed piece of property. The subject property is surrounded by residential buildings to the north and west with vacant land to the south and east of the subject property.

### CRD Regulations and Policies:

RE: Rezoning Amendment Bylaw 5178

The Ministry of Transportation and Infrastructure has no objection in principle to the proposed rezoning amendment bylaw 5178 application but provides the following comments:

The application is subject to approval pursuant to Section 52 of the Transportation Act.

This in no way relieves the owner or occupier of the responsibility of adhering to all other relevant legislation.

This in no way constitutes subdivision approval.

Please be aware that the Ministry has NOT approved the subdivision of this property at the preliminary stage and that an easement was NOT accepted as access for DL3306. Although the applicant states on the rezoning application that "the land is being used to trade for legal easement for owners to access the rest of the property – already approved by M of Transportation", this is not the case.

Please refer to the email (attached) dated June 6, 2017 with the Proposed Subdivision Review Status Report which outlines the additional information that is required before the preliminary review can be completed and a PLA or PLNA Report is issued. A subdivision is not completed until all conditions of the PLA/PLNA have been met and the final plans have been filed with Land Title Survey Authority.

Dear Ms. MacPhail:

Re: Proposed Subdivision – District Lot 692 Cariboo District

The subject property is zoned Rural 2 (RR 2) under the Cariboo Regional District North Cariboo Area Rural Land Use Zoning Bylaw No. 3505, 1999.

Minimum Lot Size: 2 hectares

Water or Sewer Specified Area: Not within water or sewer specified area.

Agricultural Land Reserve: In Agricultural Land Reserve

Recommendation: Re zoning and permission from the ALC

Comments: in Agricultural Land Reserve - requires permission of the Agricultural Land Commission. Rezoning required.

Planning Department Comments:

The property with PID 018-099-718 will require re-zoning as it is zoned Resource/Agricultural.

The applicant has not given any rationales how they meet Section 10 of the *Agricultural Land Reserve Use, Subdivision and Procedure Regulation*. There is no encroachment of the property and no justification of how the boundary adjustment would benefit the farm. Further, the parcel does not have farm status. The application should be referred to the ALC.

Dear: Nyree Alexander, Development Services Clerk

**Re: Rural Land Use Amendment Bylaw No. 5178, 2018**

Thank you for providing the BC Ministry of Agriculture the opportunity to comment on the above noted amendment bylaw referral. The Ministry has not conducted an on-site visit of the property, and would like to provide the following comments:

- The proposal is to rezone 1.36 ha from DL 3306 (ALR, R/A zoning) to RR2, and consolidate with District lot 692 (non-ALR) to create a 4.42 ha lot for residential use and to expand an existing Christmas tree farm.
- Ministry staff are encouraged to read the intent to expand an existing Christmas tree farm. The intent of land within the Agricultural Land Use Reserve (ALR) is for farming purposes, and non-farm use is restricted. If approved, any subdivision should in no way be construed as support for any future non-farm use or subdivision on the resulting parcels within the ALR. Subdivision and the creation of smaller lots can erode long term agricultural and economic potential of some parcels, increase land cost per acre which limits farm business opportunities, and in some cases have been shown to increase conflict between adjacent land uses.
- The Ministry's Bylaw Guide recommends that local governments identify a single agricultural zone for all ALR land in order to provide consistency for industry and to reflect an understanding that agriculture is the priority use for these parcels.
- The site has been viewed by staff in BC SIFT and Google Earth Pro. As you are aware, the soil class is 6 and 5 with topography, stoniness, and some shallow soil over bedrock/outcroppings as standard identified limitations. Given the existing Christmas tree farm, the soil is useable, although it is not currently being used for agriculture.

Please continue to inform me on the development of this proposed bylaw amendment. If you have any questions about our comments, please feel free to contact me.

**CRD Agriculture Policy 2015**

**5.4.2 Policy**
