### **Short Summary:**

Community Resiliency Investment Program – FireSmart Community Funding and Supports  
Application - Revision

### **Voting:**

Corporate Vote - Unweighted

### **Memorandum:**

On December 7, 2018 the Board resolved the following:

That the agenda item summary, from Stephanie Masun, Manager of Protective Services, dated November 26, 2018, regarding UBCM Community Resilience Investment Program funding, be received. Further, that the 2018 application under the UBCM Community Resilience Investment Program for updating the CRD's Community Wildfire Protection Plan dated 2006 be supported.

The CRD's submission to UBCM's CRI program has now been reviewed by their Technical Review Committee. The Committee is providing the CRD an opportunity to revise our application to scope it more appropriately and have directed us to work with the BC Wildfire Service (BCWFS).

In subsequent conversations with BCWFS, it has been determined that the areas with the highest risk in the most densely populated areas are in the Lac La Hache and 100 Mile Fringe Areas. They did not endorse our suggestion to encompass the entirety of the South Cariboo as they feel the scope is still too large.
