Subject: Species at Risk Letter

Good afternoon NCLGA members,

Please see the attached letter from NCLGA President Gord Klassen to Prime Minister Justin Trudeau and BC Premier John Horgan regarding **Species at Risk – Local Government Petition for Action (British Columbia Caribou Recovery Program)**. The letter requests the three following actions:

1. Bring local governments to the table in a meaningful way;
2. Collaboratively review, amend and release the timelines; and
3. Ensure that the process and scope of social and economic impact assessments are collaboratively developed.

Thank you,
Kim
