SECTION 2: Planning Report

Background:

It is proposed to rezone a 3.018 ha (7.46 ac) rural residential property to subdivide into two residential lots. The subject property is currently zoned as Rural 2 (RR 2) in the Williams Lake Fringe and 150 Mile House Area Zoning Bylaw No. 3502, 1999, and is designated as Rural Residential 2 in the Williams Lake Fringe Area OCP Bylaw, 4782, 2013.

One of the proposed lot sizes does not comply with the permitted lot size provisions under the current zoning of RR 2. Therefore, the applicant proposes to rezone the proposed subdivision “Lot A” as Rural 3 (RR3) with a lot size of 1.0 ha (2.47 ac). The proposal will also amend the Williams Lake Fringe Area Community Plan Bylaw No. 4782 to designate “Lot A” as Rural Residential 3 (RR3) and “Lot B” as Community Residential.

Location & Surroundings:

The subject property is located on Hodgson Road and is a treed lot. Currently, there is a residential structure, barn, root cellar, lagoon and a shed (which will be relocated in the subdivision process) existing on the property. It is surrounded by single-family dwellings to the north, south, and east, and unsurveyed crown land to the west of the subject property.

CRD Regulations and Policies:
5.20 **RURAL 3 (RR3) ZONE**

5.20.2 **ZONE PROVISIONS**

(a) LOT AREA (minimum) = 0.8 hectares (1.98 acres)

5.19 **RURAL 2 (RR2) ZONE**

5.19.2 **ZONE PROVISIONS**

(a) LOT AREA (minimum) = 2 hectares (4.94 acres)

4782 – *Williams Lake Fringe Area OCP Bylaw, 2013*

**7.3.2 RESIDENTIAL DESIGNATIONS**

- **RURAL RESIDENTIAL – 3**
  Parcels which shall be a minimum size of 0.8 hectare up to 1.5 hectare and are required to meet Health Standards.

- **COMMUNITY RESIDENTIAL**
  Parcels which shall be a minimum size of 1.2 hectare and consist of a dense settled rural area and unserviced lots.

**Rationale for Recommendations:**

The revised site plan with slight adjustment to the subdivision proposal meets the minimum standard setback of 15 metres required from the lagoon. Further, the proposal does not affect the residential character of the neighborhood. Therefore, planning staff recommends approval of this application.

**Recommendation:**

1. That the Williams Lake Fringe Area Official Community Plan Amendment Bylaw No. 5195, 2019 to re-designate the subject property from Rural Residential 2 (RR 2) designation to Rural Residential 3 (RR 3) and Community Residential designations be approved.

2. That the Williams Lake Fringe and 150 Mile House Area Zoning Amendment Bylaw No. 5196, 2019 to rezone “Lot A” of Parcel A of District Lots 550 and 2055, Cariboo District, Plan 34219 from Rural 2 (RR 2) zone to Rural 3 (RR 3) zone be approved.

**SECTION 3: Referral Comments**

**Health Authority:** - March 18, 2019

See Comments Attached.
**Ministry of Transportation and Infrastructure:** February 4, 2019

The Ministry of Transportation and Infrastructure has no objection in principle to the Zoning/OCP Amendment Bylaw No. 5195 and 5196 package received on January 31/19. Please note that the Ministry currently has a proposed subdivision application for this subject property that is being reviewed under MoTI File 2019-00351 and approval of the rezoning does not constitute subdivision approval. Anything other than a residential driveway requires a permit application to the Ministry.

**Advisory Planning Commission:** February 22, 2019

Supported. See comments attached.

**Ministry of Environment:** February 8, 2019

No comments on the proposal.

**CRD Environmental Services Department:** January 31, 2019

Interests Unaffected by bylaw.

RESPONSE SUMMARY

☐ Approval Recommended for Reasons Outlined Below
☐ Interests Unaffected by Bylaw

☐ Approval Recommended Subject to Conditions Outlined Below
☐ Approval Not Recommended Due to Reasons Outlined Below

Interior Health appreciates the opportunity to review and comment on this proposal which changes the current OCP and zoning designation to permit a 2 lot subdivision. Healthy Community Development supports the Williams Lake Fringe Area Official Community Plan (OCP) which has sound community planning principles while recognizing the need to encourage planned growth.

The proposed land use change has remained the same however the parcel size seems to have been amended to change the parcel boundary to accommodate a 15 meter setback for the existing lagoon on a 1 hectare parcel. A lagoon has specific horizontal setbacks from the property boundary, building, dwelling and other features within the standard of practice manual. The parcels must be sustainable for both potable drinking water and the onsite sewerage system. The sustainability for an initial and a future replacement site for the lagoon should be reviewed by an authorized person to ensure the parcel has the capability prior to the rezoning and OCP amendment.

Interior Health would recommend that the parcel remain under the current OCP and zoning designations.

Healthy Community Development discourages housing growth in areas where:
1) The use of private vehicles is needed due to safety and distance to commute. This recommendation is made since the reliance on private vehicles can reduce a residents’ ability to have an active lifestyle, physical activity and opportunities to access amenities. Physical activity is among the most significant modifiable behaviours that can influence a person’s likelihood of developing chronic diseases, such as diabetes, heart disease, stroke or cancer.
2) Community infrastructure is currently not available or planned for the servicing of the residential growth.
3) Development and the distance to services, daily activities and amenities, increases the likelihood it will impact greenhouses gases emissions, air quality and perhaps a target which is supported to address climate change within the Official Community Plan.

The Healthy Built Environment Linkages Toolkit is an evidence based resource which links planning principle to health outcomes.
