Memorandum:

Regarding a heritage registry, Section 598 of the *Local Government Act* provides that:

- (1) A local government may, by resolution, establish a community heritage register that identifies real property that is considered by the local government to be heritage property.
- (2) A community heritage register
 - (a) must indicate the reasons why property included in the community heritage register is considered to have heritage value or heritage character.

The Heritage Steering Committee has reviewed an application for inclusion of the property commonly known as the Stanley / Lightning on the Cariboo Regional District Heritage Registry. Cariboo Regional District staff followed up with staff from the Heritage Ministry to ensure that the Statement of Significance met their requirements.

The statement attached has been approved for form and content by the Heritage Ministry. Should the Board approve the inclusion, staff are required to notify the Minister responsible for Heritage Conservation, so that the property can be added to the provincial heritage registry. As this property had its statement approved by this ministry, it is expected that the site will also be registered federally on the Canadian Register of Historic Places.
