

Community Works Funds

Project Request

Description of Project

CRD Function: Big Lake Community Hall (1561-2140-2405 cost code:)

Scope: Drill a new well and, if possible, carry out other related, minor services at the Big Lake Community Hall.

Location: Big Lake Community Hall

Category:

Public Transit	_____	Community Energy Systems	_____
Water & Wastewater	<u> X </u>	Solid Waste Management	_____
Capacity Building	_____		

Please complete Schedule A – Eligible Project Categories and Sub-Categories

Desired Outcomes – Please explain the outcomes this project will achieve:

This project will involve drilling a well at the Big Lake Community Hall.

Currently, the water needs of the Big Lake Community Hall and the new Hall Caretaker Residence are served by a culvert cistern fed with run-off from the Big Lake Elementary School well adjacent to the Community Hall. This system is 20-30 years old and in need of repair; the Community Association has determined it practical to install a new water-source to specifically serve the needs of the Community Hall and Caretaker Residence.

This new well would replace this current water supply and is expected to more ably meet the hall's and caretaker residence's water demands.

Proposed Measurement – Please outline indicators to measure outcomes:

- 1) That the new well can meet the water demands of the community hall and caretaker residence.

- 2) That the water conforms to government standards for water quality for public use.

Budget – Please complete Schedule B – See Attached Budget Outline

Timeline – Please provide a timeline indicating projected start date and completion date of project.

Start date: June 1, 2019

Completion date: December 31, 2019

Progress Reporting:

For projects under \$50,000 and less than one-month timeline, a progress report will be required at the completion of project.

For projects over \$50,000 and longer than one month, a progress report is required at monthly intervals before funds can be transferred to applicable budget.

SCHEDULE A
ELIGIBLE INVESTMENT CATEGORIES & SUBCATEGORIES BY COMMUNITY TIER¹

The CRD is a Tier 1 group

INVESTMENT CATEGORY	SUB-CATEGORY	TIER 1	TIER 2	TIER 3
Public Transit	Develop or improve public transit system (rapid transit, buses, bus ways, sea-buses, commuter rail, ferries, street cars, cycling and pedestrian infrastructure, etc)	<input type="checkbox"/>	•	•
	Road system improvements that encourage a reduction in car-dependency (express bus lanes, HOV lanes, park and ride, bike paths, queue, etc.)	<input type="checkbox"/>	•	
	Implement innovative technologies that support environmental sustainability	<input type="checkbox"/>	•	
	Rehabilitation of roads and bridges	<input type="checkbox"/>	•	
	Paths and trails	<input type="checkbox"/>		
Community Energy Systems	Improving energy systems through the use of water systems to generate hydro	<input type="checkbox"/>	•	
	Community energy systems (wind, solar, thermal, geothermal etc.)	<input type="checkbox"/>		
	Alternative energy systems that serve local government infrastructure	<input type="checkbox"/>		
	Retro-fit local government buildings and infrastructure (e.g. water pumps, street lights, etc.)			
	Reduce the GHG impact of solid waste (e.g. biogas recovery and conversion of biomass to bio-oil)	<input type="checkbox"/>		
	Fleet vehicle conversion	<input type="checkbox"/>		
	Implement innovative technologies that support environmental sustainability	<input type="checkbox"/>		
Water and Wastewater	Developing or upgrading drinking water systems to improve water quality, and reduce water use, increase energy efficiency and secure water supply in the face of drought	<input checked="" type="checkbox"/>	•	•
	Developing or upgrading wastewater and storm water systems to improve water quality and improve aquatic habitat	<input type="checkbox"/>		
	Implement innovative technologies that support environmental sustainability	<input type="checkbox"/>	•	
	Acquisition, enhancement and or protection of community green space such as streams and natural corridors including habitat protection systems to improve water quality and improve aquatic habitat	<input type="checkbox"/>		

Solid Waste Management	Develop or improve solid waste collection, treatment, and disposal strategies in ways that reduce resource use, or encourage recycling and re-use	<input type="checkbox"/>	•	
	Support full cost recovery from users through improved application of user charges	<input type="checkbox"/>	•	
	Reduce the environmental impact of solid waste (e.g. composting, bio gas recovery)	<input type="checkbox"/>	•	
	Implement innovative technologies that support environmental sustainability	<input type="checkbox"/>	•	
Capacity Building	<i>Increase local government capacity to undertake integrated sustainability planning including:</i>			
	Regional growth strategies	<input type="checkbox"/>	•	
	Community development plans	<input type="checkbox"/>	•	
	Community plans	<input type="checkbox"/>	•	
	Community Energy Planning	<input type="checkbox"/>	•	
	Transportation plans	<input type="checkbox"/>	•	
	Infrastructure development plans	<input type="checkbox"/>	•	
	Liquid waste management plans	<input type="checkbox"/>	•	
	Solid waste management plans	<input type="checkbox"/>	•	
	Long-term cross-modal transportation plans	<input type="checkbox"/>	•	
	Water conservation/demand management plans	<input type="checkbox"/>	•	
	Drought management contingency plans	<input type="checkbox"/>	•	
	Air quality plans	<input type="checkbox"/>	•	
	Greenhouse gas reduction plans	<input type="checkbox"/>	•	
	Energy conservation plans	<input type="checkbox"/>	•	
	Implementing/planning innovative environmental technologies that support sustainability	<input type="checkbox"/>	•
