Attn: Mr. Darron Campbell, Director of Community Services

Dear Sirs,

RE: **Big Lake Community Hall – Grant Request for Water Well**

---

Further to our recent telephone and email conversation, please accept this letter as our request for funding to install a water well for the Big Lake Community Association.

Currently the water needs of the Big Lake Community Hall and our new Caretaker Residence are served by a culvert cistern which is fed with run-off from the well at Big Lake Elementary School adjacent to the Community Hall.

Given that our current system is roughly 20 to 30 years old and in need of repair, we feel it prudent to install a new water-source specifically to serve the needs of the Community Hall and Caretaker Residence.

We estimate the cost of installing a new Well in the range of \$12,000 to \$15,000 for which we are requesting financial support in the form of a grant.

Please feel free to contact us with any questions. Thank you for your support.

Regards,

Richard (Bee) Hooker, BLCA President
