Amendment to Letter for Application of CRD Grant for Riske Creek VFD

This is an amendment to the grant application previously submitted by the Riske Creek VRD. We were unaware of the budget constraints in Area K when we originally made the application. We have since had communications with Area K Director Chad Mernett regarding this matter and he has indicated that if we put in a revised budget that he would support this application.

We understand the issues the CRD might have in the future with grants made to non-CRD Departments. However, we are not requesting any structural firefighting equipment; only the equipment to work to the scope that we are currently trained for or will be trained for in the very near future (Wildland Firefighting and First Responder).

Thank you for your consideration in this matter.

Mike Elvin
