1 - Please provide your feedback on the CRD's provisional financial plan.

I think you had better re think your 4.5% increase and come into reality. I expect that not one person within the CRD has gotten a 4.5% increase in wages. Folks here are loosing their trucks and homes. You need to look at your staffing levels and expenses. Cut you overhead. What is the reason for having 2 dump folks at the LLH site? Why do we need a back hoe there 24/7. And the signage is a ridiculous wast of my money. You should be looking at a tax decrease considering the state the cariboo is in. And quit sending out your fancy news letters...another waste, I can look at your web site if I want to know what you are doing. You need to cut back and we don't need a tax increase
