

Hello,

I am a long time resident of 100 Mile House, and I have 2 young children. I was asked to write this email on behalf of several other parents, children, and community members.

As we know, there is a significant amount of interest and demand for more family oriented activities and facilities within 100 Mile.

We'd like to see an outdoor skating rink within 100 Mile House this season, as many other towns our size offer this to their residents. Possible locations could be the tennis courts at the Junior, or the tennis court in the park. If not these areas, then somewhere central and convenient.

In speaking with members of other communities that offer this, we've learned that the local fire department is often involved.

We believe that this would be a lower cost, lower maintenance amenity that would be very much appreciated and well used by many members of 100 Mile.

As someone who has lived here my whole life, I think we can all agree that 100 Mile is in need of more projects, amenities, events, etc. that go toward inspiring our residents to love where we live.

Thank you very much for your consideration, looking forward to hearing from you,

Nadaya McNeil, 100 Mile House
