A Final Report for your last grant received MUST be included with this submission, if not previously submitted.

Current Grant Requested \$ 18,000 or ?

Grant for Assistance Application – South Cariboo / District of 100 Mile house

Please answer the following questions, using additional paper if necessary.

1. What plans has your organization made to fund its activities over the next 3-5 years?
Between donations, grant funding and operations of the Legion we have continued to carry on our Mandate of serving our Veterans, 1st Responders, Senior and Community. 2020 is our 60 year anniversary of being in the Forest Grove area. We plan to carry on our mandate and work very hard to ensure we are here for many years to come.

2. If your organization charges user fees/memberships/admission, attach your current fee structure: \$55 a year \$40.11 goes to Dominion Command + 1.50 goes to zone

3. What are your organization's specific goals and objectives for this year? How do they differ from previous years?

This year our goal is to survive Covid 19 and the regulations put in place for each others safety. We are working hard to find those in need in our Community and writing grants to benefit them. We had received a grant from United way and handed out food gift cards to those we found in need.

4. Who does your organization serve? (% of clients from District, % of clients from the South Cariboo CRD)

90 % from District and 10 % from other areas

5. Does your organization receive a rental subsidy from the CRD and/or District? If so, how much?

no

6. Does your organization receive any benefit from permissive tax exemption, and if so, how much?

Yes we have we apply each year for this

7. Does your organization use CRD or District owned facilities? If so, which ones?

no

8. How will you indicate that the CRD and District are contributing to your organization?

Facebook Group and Page, advertising at the Legion and to members.

Grant for Assistance Application – South Cariboo / District of 100 Mile house

Project Summary Sheet

Please answer the following questions, using additional paper if necessary.

1. Brief Description of Proposed Use of Grant Being Applied For:

What we need is to rebuild our outer exit decks from the building, with the addition of a new roof over these exits and to make them assessable for those with a disability. This is a large project and extremely costly due to the increase in lumber prices. We have 3 other exits from the main entrance/exit.

2. How do you know there is a need for this service/project in our community?

We know that this project is needed by our Community, seniors and Veterans. With Covid 19 and the need for one entrance in and one exit out regulations it is important. The decks/roofs have needed placing from over the years of use but it has been financially out of reach.

3. Is your agency applying for funds from other levels of government or other sources for this project?

Yes due to the size and possible cost of project with lumber price increases

4. Would you still be able to complete the project if you do not receive the other funds applied for?

Even if we had to complete one deck at a time we would do it.

5. Please describe the impact of this application being denied or approval of an amount less than requested.

It will impact that the project might take longer to complete then wanted but we will replace what we can and keep looking for funding to complete the rest.

Grant for Assistance Application – South Cariboo / District of 100 Mile house

6. Start date of the project: May 1st, 2021
- End date for the project: July 2, 2021
7. Please describe the key activities that will take place to complete the project and any associated timelines.
- 1st would be getting a building permit then dismantling the old structures. Prepare the ground for putting new decks in place on so that we have a good foundation to put the structures on , next would be building the structures to code.
8. Please provide a detailed financial budget for the project.
9. Please explain how you will measure and evaluate the impact of this project on the community? How will you determine if it was successful?
- Being able to provide those with disabilities a safe and hazard free exits from the Legion, in some cases the disability is just age.

THE INFORMATION INCLUDED IN THIS APPLICATION IS TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE.
