Please complete Schedule A – Eligible Project Categories and Sub-Categories

**Desired Outcomes** – Please explain the outcomes this project will achieve:

This project will involve installing new water lines to the water system at the Horsefly Community Hall.

A new well is in place at the hall that provides adequate amounts of potable water; however, additional upgrades are required. The Community Club would like to run new insulated water lines to the kitchen and bathrooms to provide hot water. The current lines are over thirty years old and the bathrooms have never had hot water. The bathrooms will also be equipped with automatic, electronically controlled hands-free faucets. Additionally, a large water softener and a reverse osmosis system will be installed to produce top-quality drinking water.

**Proposed Measurement** – Please outline indicators to measure outcomes:

- 1) That the new water lines provide reliable and adequate amounts of hot water to the kitchen and bathrooms to meet the water demands for regular use of the hall and major events held at the facility.

- 2) That the water conforms to government standards for water quality for public use.

**Budget** – Please complete Schedule A – See Attached Budget Outline

**Timeline** – Please provide a timeline indicating projected start date and completion date of project.

Start date: January 19, 2021

Completion date: December 31, 2021

**Progress Reporting:**

For projects under \$50,000 and less than one month timeline, a progress report will be required at the completion of project.

For projects over \$50,000 and longer than one month, a progress report is required at monthly intervals before funds can be transferred to applicable budget.
