Subject: Mass Notification

Hello Ian,

To answer your question about the audio, everywhere except the mechanical room and storage room will have mass notification and audio. We will be using the existing speakers where applicable and for any zone that does not currently have speakers, we will be providing them. All areas will be able to play music and all have mass notification capability. The front desk will also be able to broadcast announcements to everywhere (i.e.: closing in 5 mins... etc.)

Thank you so for this opportunity we are very excited to be working with you 🙏

Sincerely,

Amanda Usher

Manager
