Comments on Accounting Practices

Accounting Policies

The significant accounting policies used by the entity are outlined in Note 2 to the financial statements.

- There were no significant changes in accounting policies
- We did not identify any alternative accounting policies that would have been more appropriate in the circumstances
- We did not identify any significant accounting policies in controversial or emerging areas.

Significant Financial Statement Disclosures

We did not identify any financial statement disclosures that are particularly significant, sensitive or require significant judgments, that we believe should be specifically drawn to your attention.

Uncorrected Misstatements

We accumulated uncorrected misstatements that we identified during our audit and communicated them to management. We then requested that management correct these misstatements. All uncorrected misstatements for the current period have been corrected.

There are no uncorrected misstatements from prior year financial statements.

Significant Deficiencies in Internal Control

A deficiency in internal control exists when a risk is not treated by a control or when a control is designed, implemented or operated in such a way that it is unable to prevent, or detect and correct, misstatements in the financial statements on a timely basis, or when a control necessary to prevent, or detect and correct, misstatements in the financial statements on a timely basis is missing.

A significant deficiency in internal control is defined as a deficiency or combination of deficiencies in internal control that, in the auditor's professional judgment, is of sufficient importance to merit the attention of those charged with governance.
