Williams Lake BC V2G 2A4

Dear Darron Campbell

I am writing on behalf of the Quesnel and District Heritage Association. The Antique Machinery Park, operating under the Quesnel and District Heritage Association, has a mission to actively promote the restoration, preservation and display of antique machinery and artifacts important to the history and development of the Quesnel and district region.

Volunteers actively restore, preserve and display the artifacts. Artifacts are viewed in open and closed displays inside the museum and outside. Volunteers maintain the yard, lawns and exhibits. Outside has numerous displays, some covered, on view throughout a large grassed area. Some of the artifacts, such as the saw mill, are operational and are operated on specific holiday times allowing for public viewing.

The Quesnel and District Heritage Association is a registered non-profit society # 87239 4267 RR0001. We are soliciting for grant funding to assist us with our project costs.

Security Storage Units: \$9775, Set up costs \$500, Taxes \$1270.75 Total \$11545,75

At the Machinery Park we experience a great deal of vandalism and theft. As a result, we would like to install security storage units. These units will safely protect our materials and artifacts from theft and the weather. Please see attached estimate and schematic.

Thank you for considering our request for funding. If you have any questions or concerns I may be contacted at the numbers listed above.

Sincerely,

Roland Sawatsky
Director
