## **Examples of Eligible CWF Projects**

## The following projects examples are ineligible uses of Community Works funding:

- Fire truck purchases as stand-alone projects\*
- Emergency Operations Centres and Search and Rescue Facilities
- City halls, public works buildings and other administrative buildings
- Child care centres
- Social housing
- · Seniors care facilities and housing
- · Health care related infrastructure
- Small equipment purchases as stand-alone projects
- Feasibility studies and detailed design plans (without additional capital spending)

\*Note: The eligibility criteria for fire halls and fire station infrastructure have been expanded. Please see page 5 of this document for more details.

Infrastructure Projects		
Category	Description	Examples
Local Roads, Bridges, & Active Transportation	Roads, bridges and active transportation (active transportation refers to investments that support active methods of travel)	<ul> <li>New construction and rehabilitation of local roads, bridges, cycling lanes, sidewalks paths, and hiking trails</li> <li>Intelligent Transportation systems</li> <li>Additional capacity for high occupancy/ transit lanes, grade separations, interchange structures, tunnels, intersections and roundabouts</li> </ul>
Drinking Water	Infrastructure that supports drinking water conservation, collection, treatment and distribution systems	<ul> <li>Drinking water treatment infrastructure</li> <li>Drinking water distribution system (including metering)</li> </ul>
Wastewater	Infrastructure that supports wastewater and storm water collection, treatment and management systems	<ul> <li>Wastewater collection systems and or wastewater treatment facilities or systems</li> <li>Separation of combined sewers and or combined sewer overflow control, including real-time control and system optimization</li> <li>Separate storm water collection systems and or storm water treatment facilities or systems</li> </ul>

		Wastewater sludge treatment and management systems
Community Energy Systems	Infrastructure that generates or increases efficient use of energy	<ul> <li>Renewable electricity generators</li> <li>Electric vehicle infrastructure/fleet vehicle conversion</li> <li>Hydrogen infrastructure (generation, distribution, storage)</li> <li>Wind/solar/thermal/geothermal energy systems</li> <li>Alternative energy systems that serve local government infrastructure</li> <li>Retrofit of local government buildings and infrastructure not captured in any other eligible category.</li> </ul>
Public Transit	Infrastructure which supports a shared passenger transport system which is available for public use	<ul> <li>Transit infrastructure such as rail and bus rapid transit systems, and related facilities</li> <li>Buses, rail cars, ferries, Para-transit vehicles, and other rolling stock and associated infrastructure</li> <li>Intelligent Transport Systems such as fare collection, fleet management, transit priority signalling, and real time traveler information system at stations and stops</li> <li>Related capital infrastructure including bus lanes, streetcar and trolley infrastructure, storage and maintenance facilities, security enhancement, and transit passenger terminals</li> </ul>
Solid Waste	Infrastructure that supports solid waste management systems including the collection, diversion and disposal of recyclables, compostable materials and garbage	<ul> <li>Solid waste diversion projects including recycling, composting and anaerobic digestion facilities that are clearly linked to a solid waste management plan or sustainability plan.</li> <li>Solid waste disposal projects including thermal processes, gasification, and landfill gas recovery</li> <li>Solid waste disposal strategies that reduce resource use that are clearly linked to a solid waste management plan or sustainability plan</li> </ul>
Sport Infrastructure	Amateur sport infrastructure (excludes facilities, including	Sport infrastructure for community public use

	arenas, which would be used as a home of professional sports teams or major junior hockey teams	Sport infrastructure in support of major amateur athletic events
		<ul> <li>Large facilities or complexes which support physical activity such as arenas, gymnasiums, swimming pools, sports fields, tennis, basketball, volleyball or other sport specific courts, or other facilities that have</li> </ul>
Recreation Infrastructure	Recreational facilities or networks	sport and/or physical activity as a primary rationale;  - Community centers that offer programming to the community at large, including all segments of the population;  - Networks of parks, fitness trails and bike paths
Cultural Infrastructure	Infrastructure that supports arts, humanities, and heritage	<ul> <li>Museums</li> <li>The preservation of designated heritage sites</li> <li>Local government owned libraries and archives</li> <li>Facilities for the creation, production, and presentation of the arts</li> <li>Infrastructure in support of the creation of a cultural precinct within an urban core</li> </ul>
Tourism Infrastructure	Infrastructure that attracts travelers for recreation, leisure, business or other purposes	<ul> <li>Convention centers</li> <li>Exhibition hall-type facilities</li> <li>Visitor centres</li> </ul>
Disaster Mitigation	Infrastructure that reduces or eliminates long-term impacts and risks associated with natural disasters	<ul> <li>Construction, modification or reinforcement of structures that protect from, prevent or mitigate potential physical damage resulting from extreme natural events, and impacts or events related to climate change</li> <li>Modification, reinforcement or relocation of existing public infrastructure to mitigate the effects of and/or improve resiliency to extreme national events and impacts or events related to climate change</li> <li>Note: this category is related to disaster prevention (such as dykes, berms, seismic</li> </ul>

		upgrades etc.) and not response (such as fire trucks, fire halls, etc.)
Broadband Connectivity	Infrastructure that provides internet access to residents, businesses, and/or institutions in British Columbia	<ul> <li>High-speed backbone</li> <li>Point of presence</li> <li>Local distribution within communities</li> <li>Satellite capacity</li> </ul>
Brownfield Redevelopment	Remediation or decontamination and redevelopment of a brownfield site within municipal boundaries, where the redevelopment includes: the construction of public infrastructure as identified in the context of any other category under the GTF, and/or the construction of municipal use public parks and publiclyowned social housing.	<ul> <li>New construction of public infrastructure as per the categories listed under the Federal Gas Tax Agreement</li> <li>New construction of municipal use public parks and affordable housing</li> </ul>
Regional and Local Airports	Airport related infrastructure (excludes National Airport System)	<ul> <li>Construction projects that enhance airports and are accessible all yearround, through the development, enhancement or rehabilitation of aeronautical and/or non aeronautical infrastructure (includes runways, taxiways, aprons, hangars, terminal buildings etc.)</li> <li>Non-aeronautical infrastructure such as groundside access, inland ports, parking facilities, and commercial and industrial activities</li> </ul>
Short-line Rail	Railway related infrastructure for carriage of passengers or freight	<ul> <li>Construction of lines to allow a railway to serve an industrial park, an intermodal yard, a port or a marine terminal</li> <li>Construction, rehabilitation, or upgrading of tracks and structures, excluding regular maintenance, to ensure safe travel</li> <li>Construction, development or improvement of facilities to improve interchange of goods between modes</li> </ul>

		<ul> <li>Procurement of technology and equipment used to improve the interchange of goods between modes</li> <li>Operators must offer year-round service</li> </ul>
Short-sea Shipping	Infrastructure related to the movement of cargo and passengers around the coast and on inland waterways, without directly crossing an ocean	<ul> <li>Specialized marine terminal intermodal facilities or transhipment (marine to marine) facilities</li> <li>Capitalized equipment for loading/unloading required for expansion of shortsea shipping</li> <li>Technology and equipment used to improve the interface between the marine mode and the rail/highways modes or to improve integration within the marine mode including Intelligent Transportation Systems (ITS)</li> <li>Note: The purchase of vessels, infrastructure that supports passenger-only ferry services, rehabilitation and maintenance of existing facilities such as wharves and docks, and dredging are not eligible for funding</li> </ul>
Fire Halls and Fire Stations	Fire hall and fire station infrastructure	<ul> <li>New fire hall (building) for housing fire-fighting apparatus and staff (may include attached dorms, basic training facilities and administration areas)</li> <li>Retro-fit and modernization of existing firehalls and attached building space</li> <li>Acquisition of a fire-truck as a capital asset as part of an overall capital upgrade to an existing fire hall or construction of a new firehall</li> <li>Note: the following investments are not eligible in the fire hall category:         <ul> <li>Acquisition or replacement of fire trucks or other vehicles as a standalone project</li> <li>Personal protective equipment (PPE) and gear and other fire station related equipment</li> <li>Fire hydrants and reservoirs</li> <li>Communications devices (Ex.: Cell phones, radios, pagers)</li> <li>Structural Protection Units and contents</li> </ul> </li> </ul>

Capacity Building Projects		
Category	Description	Examples
Asset Management	Increase local government capacity to undertake asset management planning practices.	<ul> <li>Asset Management Practices Assessment</li> <li>Current State of Assets Assessment</li> <li>Asset Management Policy</li> <li>Asset Management Strategy</li> <li>Asset Management Plan</li> <li>LongTerm Financial Plan</li> <li>Asset Management Practices <ul> <li>Implementation Plan</li> </ul> </li> <li>Asset Management Plan Annual Report</li> </ul>
Integrated Community Sustainability Plans	Increase local government capacity to undertake integrated community sustainability plans	<ul> <li>Integrated community sustainability plans</li> <li>Regional growth strategies</li> <li>Community development plans</li> <li>Community plans</li> </ul>
Long-term Infrastructure Plans		<ul> <li>Transportation plans</li> <li>Infrastructure development plans</li> <li>Liquid waste management plans</li> <li>Solid waste management plans</li> <li>Longterm crossmodal transportation plans</li> <li>Water conservation/demand management plans</li> <li>Drought management contingency plans</li> <li>Air quality plans</li> <li>GHG reduction plans</li> <li>Energy conservation plans</li> </ul>
