2022 Business Plan South Cariboo Transit Service (1028)

Darron Campbell, Manager of Community Services

Working in partnership with communities large and small to offer local, sub-regional, and regional services to ensure that the Cariboo Chilcotin is a socially, economically, and environmentally desirable region.

Department/Function Services

The South Cariboo Transit Service function was established through Bylaw No. 3282 in 1997.

This service is provided by means of a contract with the District of 100 Mile House. The contract is based on ridership from a local service area, which is a portion of Electoral Area G in the 108 Mile Ranch and Lac La Hache areas. Under the terms of the contract, the Regional District pays 50 percent of the net municipal cost of the service. The current contract has a three-year term from 2020-2023.

Requisition is by way of a parcel tax. The maximum requisition is \$25,000 or \$0.14/\$1,000 of assessment.

As the Electoral Area G Director is the only stakeholder, and the *Local Government Act* requires more than one vote, the entire Board is responsible for the governance of this service.

Business Plan Goals, Rationale & Strategies

No new goals identified for 2022.

Overall Financial Impact

In 2022, the requisition is raised by 4.5%, amounting to an increase of \$2,520 for a total requisition of \$58,526.

The 2023–2026 requisitions are projected to increase by 4.5% per year in order to accommodate financial projections received from BC Transit, which include significant cost increases for lease fees on replacement vehicles.

Significant Issues & Trends

In the challenging times of the global COVID-19 pandemic, the transit service developed safety plans in order to continue to be available. It is unknown at this time if this will continue and to what extent into 2022.

The Cariboo Regional District is a signatory on the Province of BC/UBCM Climate Action Charter and has committed to continuing work towards carbon neutrality in respect of corporate operations.

Measuring Previous Years Performance

Goal: Request that the District of 100 Mile House and BC Transit consider expanding transit service to Electoral Area L of the south Cariboo.

- Completed. The District advised that it does not have the capacity to expand the transit service.

Other Accomplishments

A transit feasibility study by BC Transit, for service to Lone Butte and Forest Grove, was initiated in 2014 and completed in March 2015. It was determined that the service is not cost effective and will not be pursued.
