2022 Business Plan 100 Mile Fringe Fire Protection (1320)

Stuart Larson, Manager of Protective Services

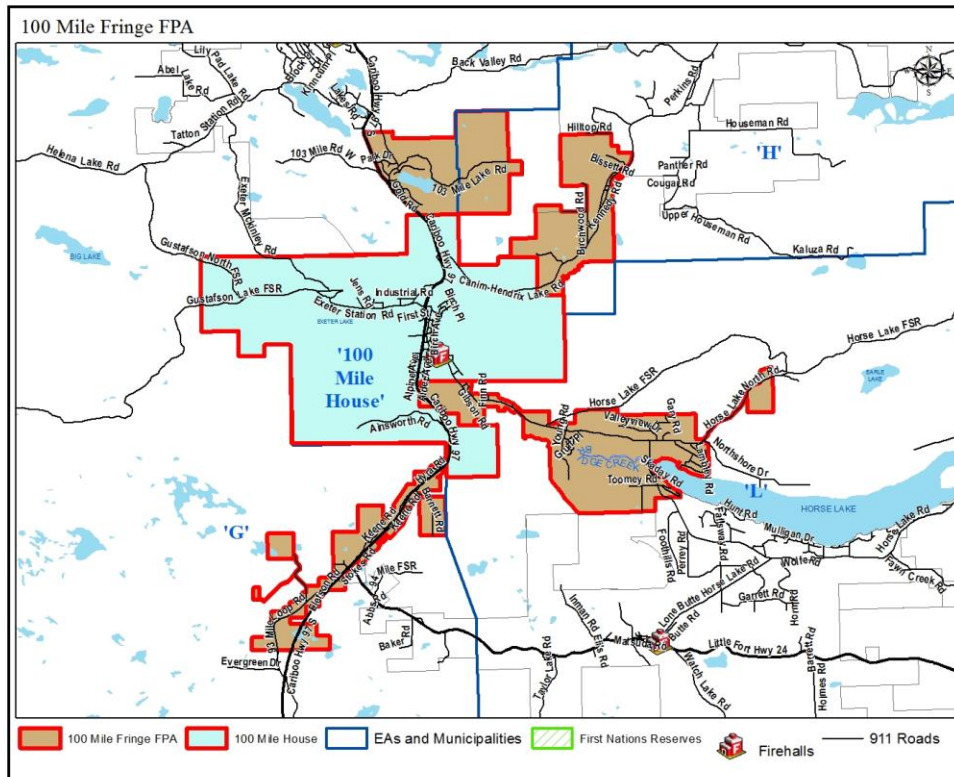

Working in partnership with communities large and small to offer local, sub-regional, and regional services to ensure that the Cariboo Chilcotin is a socially, economically, and environmentally desirable region.

Department/Function Services

Supplementary Letters Patent originally established the 100 Mile Fire Protection function. In 1990, the function was amended by Bylaw No. 2439 and again by Bylaw No. 3551 in 1999, such that the District of 100 Mile House directly collects taxation for the service within its municipal boundaries and the CRD collects only from those properties in the fringe area that receive fire protection service from the District of 100 Mile House. Taxation for this function is collected on the basis of assessed value of land and improvements. The maximum taxation rate that can be applied against the assessment is the greater of \$50,000 or \$1.20/\$1,000 of assessed value.

The District of 100 Mile House, through a contractual agreement, provides fire protection services to CRD properties on the fringe of the 100 Mile Fire Department fire protection area.

This service is provided to portions of Electoral Areas G, H, and L and the Directors of the same Electoral Areas are responsible for the governance of this service.

Business Plan Goals, Rationale & Strategies

There are no measurable goals for this function in 2022.

Significant Issues & Trends

The Cariboo Regional District is a signatory on the Province of BC/UBCM Climate Action Charter and has committed to continuing work towards carbon neutrality in respect of corporate operations.
