Date of your last Annual General Meeting (AGM): 9/7/2021

Previous Grant from CRD amount: \$

Current Grant Requested from CRD: \$ 5000

1. What plans has your organization made to fund its activities over the next 3-5 years?

We have secured private donations from local businesses; we will be applying for applicable grants.

2. If your organization charges user fees/memberships/admission, attach your current fee structure.

3. What are your organization's specific goals and objectives for this year? How do they differ from previous years?

No

4. Would you still be able to complete the project if you do not receive the other funds applied for?

No

5. Please describe the impact of this application being denied or approval of an amount less than requested.

Receiving this grant money would allow us to build more consistent ice. The liner would ensure that we don't lose all our water on mild days, which means we would not have to rely on the fire department to flood the rink as often. The goal nets would be of stronger quality, ensuring that we can use them year after year.

6. Start date of the project: 11/30/2021 End date for the project: 12/22/2021

7. Please describe the key activities that will take place to complete the project and any associated timelines.

Researching and ordering a rink liner Building rink Installing liner Flooding Rink Ordering/Purchasing goal nets Assembling goal nets Delivering goal nets

8. Please provide a detailed financial budget for the project.

9. Please explain how you will measure and evaluate the impact of this project on the community and how will you determine if it was successful?

We will measure the success of this project by the improvement in maintaining and keeping our ice over last year. We hope for less days where we have to close the rink due to poor ice conditions.

Annual General Meeting

-Discussed shortcomings of pilot season:

- nets fell apart and need to be replaced

- we made some mistakes in building the ice at the beginning of the season, which contributed to challenging ice maintenance throughout the year

Improvements for upcoming season:

- purchasing a liner

- purchasing proper goal nets

Challenges:

- Zamboni: can we use Ed Ray's? If we can't, we will have to purchase one

- Storing Zamboni: public works yard? Fire Department?
