put on agenda.

## Petition

### To the CRD Board of Directors

The Vaccine Mandate you implemented has a huge negative impact.

We, the undersigned, ask you to:

**Let the employees you send on unpaid leave return to work immediately. Let volunteers who had to drop out because of the Vaccine mandate return to their positions.**

Services at the CRD are interrupted because of staff shortage, much needed volunteer firefighters are not available to the region while valued and experienced employees and volunteers are tossed aside, lose their income and the impact on their lives is unmeasurable.

A Vaccine Mandate for a substance that does not stop the transmission and is for a disease that according to a statement of Dr. Bonnie Henry "is more like the flu" and "We have to learn to live with it" is not justified.
