### PLANNING COMMENTS

---

#### Background:

The applicant has requested that a temporary use permit be granted to allow residential accommodation within the existing 14.9 sq. m (160 sq. ft.) recreational vehicle (RV) on the subject property. The property is designated Country Residential in the Quesnel Fringe Area Official Community Plan Bylaw No. 4844, 2014, and zoned Residential 2 (R 2) in the Quesnel Fringe Area Zoning Bylaw No. 3504, 1999. Beside the RV, there are no buildings currently existing on the property.

#### Location and Surroundings:

The subject property is located on Duncan Road, adjacent to Bjornson Road with Ten Mile Lake to the west as shown in Appendix A. The property is slightly sloped and has dense tree coverage. The size of the subject property is 0.401 ha (0.991 ac.) and is mostly surrounded by vacant residential lots on the neighbouring sides.

## CRD Regulations and Policies:

### *4844 Quesnel Fringe Area Official Community Plan*

#### **13.4 Temporary Use Permits**

13.4.1 The Regional District will consider issuing temporary use permits throughout the plan area.

13.4.2 The Regional District requires an applicant for a temporary use permit to adhere to the following general conditions.

- i) the use must be clearly temporary or seasonal in nature;
- ii) does not cause undesirable health, safety or environmental impacts;
- iii) does not have a negative impact on adjacent lands;
- iv) has a low demand for water and sewer services;
- v) does not permanently alter the site upon which it is located, and
- vi) complies with all conditions specified by the Board in the Temporary Use Permit.

#### **Non-Commercial Recreational Use of an RV Policy (2015-8-37)**

1. Non-commercial recreational use for a maximum two (2) RV(s) from May through September annually.
2. Non-commercial winter storage for a maximum of two (2) RV(s) from October through April annually.
3. The RV and any associated detached improvements will not be located within a Development Permit Area for aquatic or riparian protection or within 15 m of the natural boundary of a lake and 30 m (98.4 ft) from the natural boundary of a watercourse; whichever is greater.
4. Beyond what is permitted by zoning, all associated structures must be temporary in nature, or a minimum \$2,000 bond or letter of credit must be submitted and held by the Cariboo Regional District to remove the structures. In all cases the applicants must agree to remove the structures, prior to the expiry of the Temporary Use Permit.
5. The applicant must comply with the Cariboo Regional District Building Bylaw for all associated structures. All structures must be detached from the RV and not exceed 55 sq. m (592 sq. ft).
6. All personal vehicles used by the applicant and guests must be accommodated with off-street parking to a maximum of four (4) vehicles.
7. Other conditions may be imposed on a site-specific basis.
8. The Board will consider if the application is in keeping with the character of the neighbourhood.

9. The Board may require the applicant to host a public information meeting to gather more information regarding the character of the neighbourhood and general acceptance in the community.
10. The Temporary Use Permit may be revoked if any of the conditions have not been adhered to.

Rationale for Recommendations:

Planning staff have received an application for a Temporary Use Permit (TUP) for a recreational vehicle to be used as a primary residential accommodation on the subject property. The permit was applied for after the property was subject to CRD Bylaw Enforcement. The Quesnel Fringe Area Official Community Plan authorizes TUP applications throughout the entire plan area.

The Ministry of Transportation and Infrastructure (MOTI) and the CRD Chief Building Official each have no objection to the proposal.

At the time of drafting this report, the Northern Health Authority has not returned comments on the proposal. Any waste generated from the RV would need to be disposed of using an approved method.

Area B Advisory Planning Commission (APC) recommended against the proposal, stating concerns with the applicant's future plans to reside in shipping containers. Planning staff note that shipping containers can be utilized for residential accommodation subject only to a valid building permit, with approved engineering design and review.

Planning staff are supportive of the request for a Temporary Use Permit, provided it complies to Policy 2015-8-37 and the RV is only used between May through September and it is stored for the winter on or off-site between October and April.

Staff recommend public notice of the proposal rather than a public information meeting. Staff also note that no associated structures are proposed and as such no financial security is required. Additional conditions proposed will ensure waste will be disposed of appropriately.

Recommendation:

That the application for a Temporary Use Permit pertaining to Lot 1, District Lot 6195, Cariboo District, Plan 31056 to allow the subject property to be used for the residential use of an RV be approved, in principle, as per Appendix "B" subject to the following:

- i. The Recreational Vehicle (RV) only be used for seasonal accommodation from May through September annually.
- ii. Any liquid waste generated must be disposed of in compliance with Provincial regulations.

Further, that a public notice, advising of the details of the application and requesting written submissions from interested persons, be placed in the local newspaper.

## REFERRAL COMMENTS

---

Health Authority:

No response.

Ministry of Transportation and Infrastructure: August 25, 2022

The Ministry of Transportation and Infrastructure have no objections in principle to the proposed temporary permit allowing residential accommodation within an existing RV on site. Thank you for giving the Ministry an opportunity to provide comments.

Advisory Planning Commission:

See attached.

Ministry of Environment and Climate Change Strategy: Terrestrial, Aquatic Habitat and Wildlife: September 20, 2022:

This application looks like it is on private land which we don't comment on. However, I did a quick scan for wildlife and habitat overlaps and there were none, so the terrestrial habitat section doesn't have any comments.

CRD Chief Building Official: September 21, 2022

No objections.

## BOARD ACTION

---

October 6, 2022:

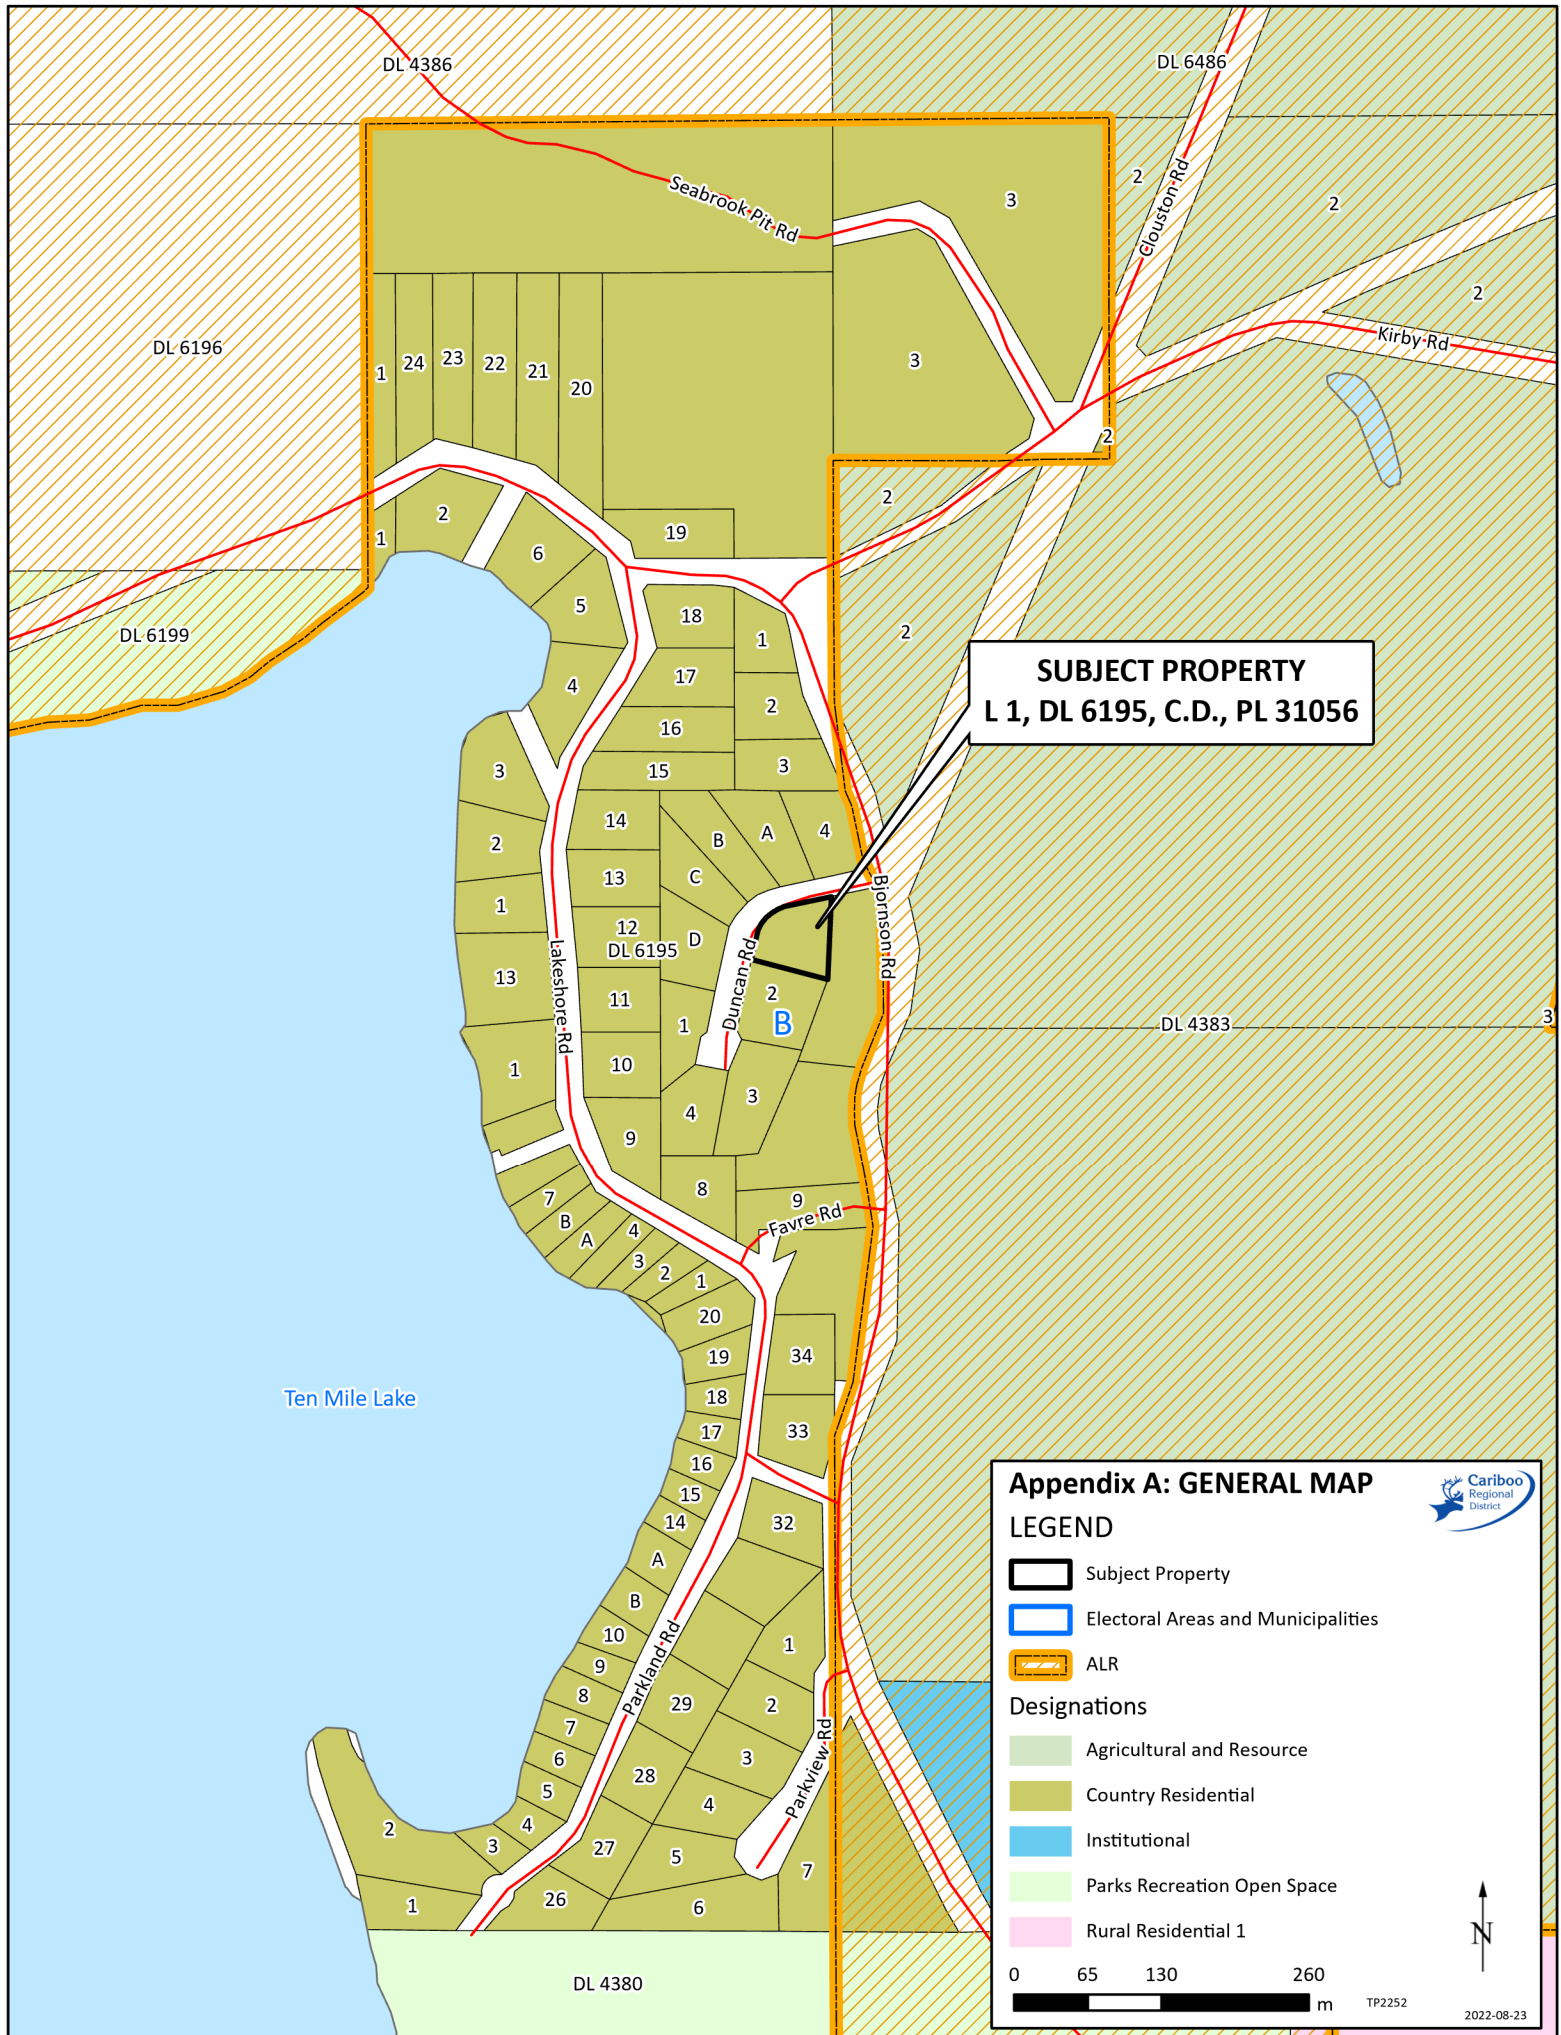

That the application pertaining to Lot 1, District Lot 6195, Cariboo District, Plan 31056 requesting the issuance of a Temporary Use Permit to allow the subject property to be used for the residential use of an RV, be deferred to the November 10, 2022, meeting.
