Mr. Darron Campbell
Manager of Community Services
Cariboo Regional District
Suite D, 180 North Third Avenue,
Williams Lake, BC V2G 2A4

Dear Mr. Campbell,

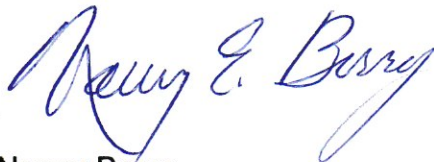

Re: Hydro Efficiency Grant

The Nimpo Lake Community Association wishes to apply for the Hydro Efficiency Grant in order to replace the electric water heater with a propane on-demand water heater. The current electric water heater used 6,815 kwh over a 12 month period because it was left running throughout the year. Unfortunately, that water heater is no longer functioning. The installation of the propane on-demand water heater would completely eliminate that hydro usage.

We have received a quotation from Chilcotin Plumbing to remove the old electric water heater and replace it with a new tankless propane one which is attached.

We look forward to hearing from you at your earliest convenience.

Yours truly,

Nancy Berry
Vice President
Nimpo Lake Community Association
