Subject: Request for funding South Cariboo Health Foundation

 You don't often get email from rmbullen@telus.net. [Learn why this is important](#)

Hello Kevin,

I spoke with Natalie Kulyk the Director of Clinical Operations 100 Mile House regarding your concerns with the possibility of Interior Health applying as well for the 40% grant for the wound care clinic project. Natalie stated the funding as she understood was always going to be 100% of the Healths Foundation responsibility. Natalie said it was too late for any request for funding on the hospitals' behalf because the request should have been made in February of this year through Interior Health.

Best Regards

Richard Bullen
President South Cariboo Health Foundation
