

Farm Product Guide

Your guide

TO BUYING LOCAL FOOD AND FARM PRODUCTS IN THE NORTH CARIBOO

TO LOCAL FOOD AND FARM PRODUCTS IN THE NORTH CARIBOO

YOUR YEAR ROUND GUIDE

30 FARM LISTINGS

WELCOME TO THE 2023-2024 North Cariboo FARM PRODUCTS GUIDE!

The North Cariboo Farm Products Guide will assist you in connecting with local producers of farm fresh food, agriculture products and agri-tourism services. With this guide you will be able to enjoy locally produced food, products and services and experience the best the North Cariboo has to offer!

The North Cariboo Farm Products Guide is an initiative of the North Cariboo Agricultural Marketing Association dba FARMED, a non-profit organization committed to supporting local food production and promoting food sovereignty in the North Cariboo. FARMED would like to thank the Opportunities 2022 & Beyond committee members, the funding sponsors and the participating agricultural producers for their support in the production of this guide.

How to use the Guide
The farms in this guide are listed by geographic region. Each listing provides the farm products and services, contact information and point of sale, either direct from the producer farm gate or from the retail outlets identified in the farm listing. The Farm Product Index may also be used to quickly locate a specific product or service and direct you to the local producer listing.

Note: Out of courtesy to all producers it is recommended you contact the farm first, to arrange a point of sale. Please consider any special requests made by producers in the listing concerning visitors.

The North Cariboo Agricultural Marketing Association is not responsible for the quality of the products sold, nor do we guarantee hours of operation listed.

For additional information on FARMED and this project, please email info@farmed.ca or go to www.farmed.ca.
