Hi, Kevin.

One idea that might benefit from the unallocated Community Growth Fund money is the reconfiguration of the Board room. It's been "on the list" for several years now that we need to replace the Board room table and upgrade the audio/visual equipment. As you are aware, we often have Board members attending meetings virtually now, and it's difficult without the proper equipment that enables quality sound and video display. This would also assist us in our efforts to be transparent with the public because we could leave our meeting recordings up for members the public to view at their convenience rather than having to tune in during the live meeting.

Just a thought! 😊

Further to my previous email:

It is also in alignment with the Board's Strategic Goal of raising the profile of the CRD, as having quality recordings of Board meetings that could be posted and remain on the CRD website would assist in showcasing what the Board does and raise the level of public awareness/understanding of CRD services and governance roles.

Thanks.
