PLANNING COMMENTS

Background:

It is proposed to rezone an 8.54 ha (21.1 ac.) rural residential property to subdivide into four smaller residential lots and create opportunity for more affordable rural housing. The subject property is currently zoned as Rural 1 (RR 1) in the South Cariboo Area Zoning Bylaw No. 3501, 1999 and is designated as Rural Residential in the South Cariboo Area Official Community Plan Bylaw No. 5171, 2018.

The proposed lot sizes do not comply with the permitted lot size provisions under the current zoning of RR 1. Therefore, the applicant has requested to rezone a portion of the subject property

from Rural 1 (RR 1) zone to Special Exception R 1-4 and Rural 3 (RR 3) zones. The proposal includes one 0.45 ha (1.11 ac.) R 1 lot, two 1.01 ha (2.5 ac.) RR 3 lots and the remainder RR 1 lot of 6.1 ha (15.07 ac.) in size as shown in Appendix C.

South Cariboo Area Zoning Bylaw No. 3501, 1999 is proposed to be amended by including the following section:

5.12.3.4 Special Exception R 1-4 Zone (3360-20/20200044)

Notwithstanding any other provisions of this bylaw to the contrary, on lands zoned R 1-4:

- i) Interior Side Yard – Setback = 3 metres (4.92 feet)

All other provisions of the R 1 zone shall apply.

Further, it is proposed to redesignate the property from Rural Residential to Upland Residential and the remainder Rural Residential designations respectively to maintain compliance with the proposed zoning. It is also requested to amend Schedule “A” of the South Cariboo Area Official Community Plan Bylaw No. 5171, 2018 by inserting the following text after 8.3.3:

- i) Where parcels are isolated by road, water boundaries, or other factors, reduced area may be considered on individual merits and conditions. Water and sewer provision must meet provincial servicing requirements. Further development criteria to be met and administered by Subdivision Approval Authority at subdivision approval stage.

Location & Surroundings:

The subject property is located at 5916 Little Fort Highway 24 in the Lone Butte neighbourhood as shown in Appendix B. It is mostly covered in second growth trees and grass/shrubs with highly sensitive 93 Mile Creek that flows through the southern portion of the property. In terms of topography, there is a gradual slope towards 93 Mile Creek.

There is a 115.34 sq. m (1,241.51 sq. ft.) storage shed, 9 sq. m (96.88 sq. ft.) pumphouse/electrical shed and a well existing on the property. Currently, the property is being cleared and improved for building a long-term residence. It is mostly surrounded by rural residential lots with a commercial lot to the west and a large vacant crown land to the south of the subject property.

CRD Regulations and Policies:

3501- South Cariboo Area Zoning Bylaw, 1999

5.12 RESIDENTIAL 1 (R 1) ZONE

5.12.2 ZONE PROVISIONS

- (a) LOT AREA (minimum) = 0.4 hectares (0.988 acres)

5.20 RURAL 3 (RR 3) ZONE

5.20.2 ZONE PROVISIONS

- (a) LOT AREA (minimum) = 0.8 hectares (1.98 acres)

5.18 RURAL 1 (RR 1) ZONE

5.18.2 ZONE PROVISIONS

- (a) LOT AREA (minimum) = 4 hectares (9.88 acres)

Rationale for Recommendations:

Planning staff are supportive of the proposed zoning amendment application. The proposal is in compliance with Section 8.2 of the South Cariboo Area Official Community Plan (OCP) Bylaw by permitting a range of lot sizes and maintaining the varied character of the area.

To provide an adequate buffer and privacy for the neighbouring property to the west, the Advisory Planning Commission (APC) has recommended that the required interior side yard setback be increased. Planning Staff agrees with that reasoning and, therefore, has amended the proposal requiring a 3 m (4.94 ft.) interior side yard setback from west boundary of the subject property.

The Ministry of Transportation and Infrastructure (MOTI) currently has no objections over the proposed rezoning. However, there are several development criteria that will be considered at the subdivision approval stage including but not limited to right of way dedication, no direct access to Little Fort Highway 24, sewage disposal, proof of water, archeological assessment, and drainage.

Based on current best practice, Interior Health Authority (IHA) encourages a minimum of 1 ha (2.47 ac.) parcel size to ensure sustainable onsite water and sewer services. The proposed Lot 1 size of 0.45 ha (1.11 ac.) is clearly not in compliance, but staff recognizes that the lot size of the proposed Lot 1 is restricted due to the existing road layout. Although the size of Lot 1 is significantly small for a rural area, a single-family development is still feasible as seen further east in the Lone Butte neighbourhood. Therefore, planning staff recommends approval of this application.

The applicant must comply with the CRD Shoreland Management Policy with respect to sewage disposal and riparian protection due to the presence of highly sensitive 93 Mile Creek on the subject property. This will further ensure the ability of the proposed new lots to accommodate sustainable sewerage disposal systems.

Further, the subject property is within the Aquatic Habitat Development Permit Area as designated under Section 488 (1) (a) of the *Local Government Act* for the protection of the natural environment, its ecosystems and biological diversity. As per Section 5.5.2 of the South Cariboo Area OCP Bylaw, a Development Permit will be required prior to the subdivision of land or construction of a building/structure on the subject property.

Recommendation:

1. That South Cariboo Area Official Community Plan Amendment Bylaw No. 5305, 2021 be approved.
2. That South Cariboo Area Zoning Amendment Bylaw No. 5306, 2021 be approved. Further, that adoption be subject to the following conditions:
 - i) Adoption of the South Cariboo Area Official Community Plan Amendment Bylaw No. 5305, 2021.
 - ii) The applicant offering to enter into and entering into a covenant to ensure compliance with the CRD Shoreland Management Policy with respect to sewerage disposal and riparian protection.

Further, that the cost of registration of the Shoreland Management Policy covenant be borne by the applicant.

REFERRAL COMMENTS

Health Authority: February 8, 2021

Interior Health Healthy Communities thanks you for the opportunity to provide a health perspective to this proposal that will create rural housing by subdividing an existing lot into four smaller residential lots.

The bylaw will create a variation in parcel size from all adjoining parcels that is in keeping with the community design.

One of the proposed lots is 0.45 hectares in size, which would not meet the Interior Health guidelines for subdivision requirements for parcels serviced with onsite drinking water and onsite sewerage.

These parcels are approximately 20 km from the community of 100 Mile House, which would require the residents to be dependant on private vehicles to carry out their daily activities. Healthy neighbourhood design as per the Healthy Built Environment Linkages Toolkit facilitates

land use decisions that prioritize complete, compact and connected communities, which have positive health impacts on the population's physical and mental health.

Interior Health aims to improve health and wellness by creating policies and environments that support good health.

Ministry of Transportation and Infrastructure: January 22, 2021
eDAS # 2021-00423

The Ministry of Transportation and Infrastructure has no objection in principle to the proposed rezoning. Please note this in no way constitutes subdivision approval and items to be considered at the subdivision stage may include but are not limited to:

- No direct access to 93 Mile Little Fort Highway # 24
- Right of way dedication
- Sewage Disposal
- Proof of Water
- Archaeology Assessment
- Drainage

 Subject Property

SW 1/4 DL 4037, L.D. -
Reasons in support of rezoning

- current property configuration is a result of subdivision ongoing over 47 years
- **Proposed Lot 1** is of no use as “hooked” across Eli's Road. It is reasonably shaped, has minimum depth of 34 m, widening to the south. Property is high and dry, slopes moderately (3 – 4 %) away from adjoining Lot 1 of Plan 29152, and is sandy well-drained soil. This lot is covered in second growth pine, fir, and poplar.
- **Proposed Lots 2 and 3** have level frontage onto Eli's Road. Property is mostly treed with second growth pine and poplar. Both lots are well shaped, flat, and offer opportunity to develop these properties easily to make use of the 1 ha size. Proposed Lots 1, 2, and 3 promote the stated objective of the OCP “to maintain the varied character of the area, by permitting a range of lot sizes”. These smaller lots also create opportunity for more affordable rural housing by not requiring, and then not utilizing, large areas of land. Most or many 2 and 4 hectare lots only utilize less than 50% of their area.
- **Proposed Lot 4** remains large enough to meet current zoning and OCP designation. It is well away from Highway 24, and is largely treed with some initial clearing for residential development to continue. Future development could occur with no significant restraints, but none is contemplated at this time. 93 Mile Creek through the SEly tip of this property is not affected, and offers no benefit for any use.

The owners of this property wish to create one smaller lot for their son (Lot 3) and to keep the remainder (Lot 4) for their eventual relocation to the South Cariboo. The one extra residential lot (Lot 2) will help pay for the development costs to finalize this proposal.
