2023 Grant-in-Aid application budget – 100 Mile Nordics eaves/rear stair repairs

Our proposed eaves and rear stair repairs will be done using donated materials and volunteer labour where possible. At this time we cannot provide a detailed financial budget for the proposed work. In addition, labour and material costs are rising rapidly and we expect our project costs may rise over the course of the season, making a current estimate likely to be below the actual project costs once completed. Our facilities coordinator has provided a preliminary hard cost estimate of \$6000 - \$10,000 depending on the donated materials and in-kind services we hope to receive as our fundraising campaign begins with the 2023/24 season.

PROJECT INFORMATION

1. Brief Description of Proposed Use of Grant Being Applied For:

The monies will be used in the upkeep and repair of our roof eaves, rear landing and stairway. The required work has a preliminary estimate budget of approximately \$6,000 - \$10,000.

2. How do you know there is a need for this service/project in our community?

The 100 Mile Nordics board has identified the work as a top priority in our regular lodge maintenance. Addressing the need for repairs to our eaves and rear stairs will prevent the need for more costly repairs and/or replacement in the future. Our facilities coordinator has inspected the current condition of the building's rear eaves and stairway and has recommended the work begin in anticipation of the upcoming 2023/24 Nordic skiing season. We plan to schedule the work throughout the coming season as time and volunteer resources become available.

3. Start date of the project: 11/4/2023 End date for the project: 3/31/2024

4. Describe the key activities and timelies to complete this project: November 2023 - begin repairs and maintenance work to rear roof eaves, rear landing and staircase. Work will be done with the help of club volunteers where possible. We plan to arrange work bees throughout the 2023/24 season. Local contractors will also be employed to complete work that cannot be accomplished with volunteer labour. March 2024 - All work will be completed by the end of the upcoming Nordic ski season

5. How will you determine if the project/event was successful? Our building and ground are subject to regular inspection by our facilities coordinator. We will be able to determine over the course of the upcoming ski season if the maintenance and regains were successful

6. Does your organization have sustainable funding? Please explain. The 100 Mile Nordics is selfsustaining organization that relies on a variety of revenue streams including seasons passes, day passes, rental income, grants and service contracts. We are in a stable financial position with capital assets and cash reserves on hand in case of sudden financial needs.

7. Is your agency applying for funds from other sources for this project/event? Yes

8. Describe the impact of this application being denied or approval of an amount less than requested. Will you be able to complete the project/event if you do not receive the funds? Fundraising for the work is happening on an ongoing basis to applicable grant opportunities, potential corporate donors and individual contributions. The project will go ahead even if we are unsuccessful in our grant-in-aid application. A successful grant application however, helps us defray this necessary expense and allocate commensurate funding to other programs such as our youth Skills Development Program, which provides Nordic skiing skills training to school age children in our area.

9. Does your organization charge user fees/membership/admission? If yes, attach your current fee structure. Yes

10. Does your organization receive any other support(s) from the CRD? (i.e. financial support, rental subsidies, contribution agreements, tax exemption, use of CRD-owned facility) If yes, what support(s) and how much?

No

11. How will you recognize the CRD's contribution to your organization?

Cariboo Regional District Grant for Assistance Program Report

On May 2, 2023, the 100 Mile Nordic Ski Society received a \$1500 grant from the Cariboo Regional District grant for assistance program. Per our application, the funds were used to help pay the increased insurance costs the society has incurred through the acquisition of new equipment (new trail groomer) and increases in insurance costs in general.

Recognition of this sponsorship was included in the president's report at our recent annual general meeting, at a presentation to the June District of 100 Mile council meeting, and will be included in our email messaging to members at the start of the 2023/24 season.

The board of the 100 Mile Nordic Ski Society would like to thank the CRD for their continuing support for Nordic skiing in our community. We are proud to provide an affordable, all-ages, winter activity to residents and visitors. The support of our regional government is an important component of our success.

On behalf of the 100 Mile Nordic Ski Society,

Chris Keam

President
