OTHER INFORMATION

Events/Rentals

We had seven rentals ranging from a snowball tournament to a swing dance to a birthday party. Remember our facility is open year round for events, just email Kelly Powell at cherylkellypowell@gmail.com.

Sponsorship and Advertising

We lost our main man in Mel Dodge who moved to Vernon, but other members have taken up the slack and we expect that the support we received from the community before will continue.

Capital Purchases and Improvements

We invested a lot of money in a reverse osmosis system and water softener which made an incredible improvement to our ice conditions. We still have issues with humidity control, and the existing concrete slab such as exposed rebar and settling out of level and we hope these issues can be addressed by Canlan and the CRD before the next curling season.

Canlan and the CRD replaced our inadequate hot water tank in the kitchen with a tankless hot water system which greatly improved the clean up tasks and it was very much appreciated.

Website / Facebook

PROMOTIONS at date of AGM

	2020/2021	2021/2022	2022/2023

Instagram (followers)	94	106	112

We are more than pleased with how this year turned out. Even though we had a major ice issue which caused our volunteers countless hours to replace the year ended on a high note with everyone enjoying a great season. We had 4 very successful bonspiels, 6 leagues, and 2 drop ins with the general feeling being that next year is going to be even better. We also anticipate a surge in new and returning curlers for the coming season.

So remember that all our information is on our website or check out Facebook and Instagram for updates.

The CurlIBC online registration system curling.io was an issue for some people but we all got through it. We will continue to use this system so the learning curve should be less steep come next years registration time.

**100 MILE CURLING CLUB
15 Year Capital Plan
