Importance: High

Good afternoon.

By way of this email, special voting is being conducted pursuant to BC Reg. 41/91.

The resolution for consideration by a corporate, unweighted vote is as follows:

That the following resolution be submitted to the North Central Local Government Association for consideration at its 2024 annual general meeting:

WHEREAS Health Canada issues certificates to persons permitting individuals to grow marijuana plants at designated locations for the purpose of producing cannabis for personal medical use;

AND WHEREAS the number of plants which may be possessed under a medical certificate can permit a person to possess a number of plants similar to an industrial marijuana grow facility;

BE IT RESOLVED that the North Central Local Government Association and Federation of Canadian Municipalities call on Health Canada to refer and consult with local governments prior to issuing medical certificates authorizing individuals to possess a number of marijuana plants at any location within a given local government's jurisdictional boundaries which, by Health Canada's calculation, could produce more than 150 grams per day of dried cannabis effectively running a marijuana grow facility with resulting issues involving nuisance in neighbourhoods not zoned for such land use.

Please hit "reply all" indicating your approval or opposition for the above-

noted resolution, but DO NOT DEBATE the issue. A reply is requested as soon as possible and the deadline for responses is 4:00 pm tomorrow, Thursday March 7th.

Thank you in advance for your prompt attention to this matter. There is further information attached to this email, but please contact myself or Gerald Pinchbeck if you have any other questions.
