Short Summary:

Wildfire Mitigation in the Cariboo Regional District

Background:

The Cariboo Regional District (CRD) is engaged in wildfire mitigation through the FireSmart program, which aims to reduce wildfire impact. Funded by the UBCM's Community Resiliency Investment Program, the CRD's 2024 FireSmart initiatives include a region-wide education program by a full time FireSmart Educator and incentivized vegetative debris disposal for an area in the Cariboo Regional District.

This discussion aims to determine the next steps and scope of the CRD's FireSmart future program and Wildfire Mitigation in the Cariboo Regional District.
