

building communities together

2025 Business Plan Miocene Fire Protection (1332)

Cody Braaten, Manager of Fire Administration

Working in partnership with communities large and small to offer local, sub-regional, and regional services to ensure that the Cariboo Chilcotin is a socially, economically, and environmentally desirable region.

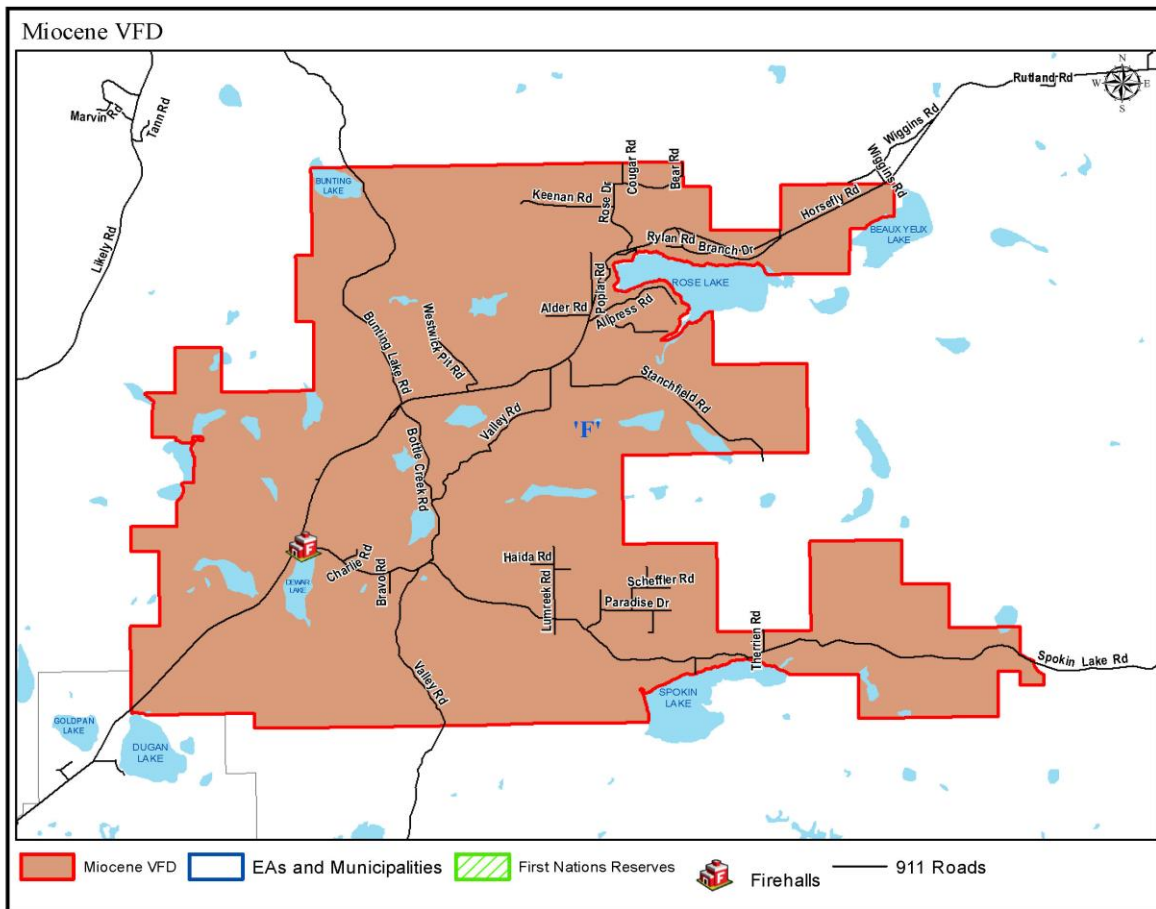

Department/Function Services

The Miocene Volunteer Fire Department, authorized by Bylaw No. 2809, was established as a function of the Cariboo Regional District in 1994 by means of a referendum assented to by the property owners within the local service area. Miocene Fire Protection was amended in 2007 by Bylaw No. 4300. Miocene Fire Protection is funded by a taxation rate applied against the assessed value of land and improvements within the local service area. The maximum taxation rate that can be collected is the greater of \$50,000 or \$2.71/\$1,000 of assessed value.

The Miocene Volunteer Fire Department provides fire protection and suppression, and first responder services within their specified area.

As the Electoral Area F Director is the only stakeholder, and the *Local Government Act* requires more than one vote, the entire Board is responsible for the governance of this service.

Business Plan Goals, Rationale & Strategies

2025 Miocene VFD Goals

1. **Goal:** Replace Squad 11 vehicle.
Rationale: Current Squad 11 no longer fits the needs of the VFD and is unsafe to drive in the winter. Acquiring a used pickup truck with 4x4 will allow for better response to First Responder incidents.
Strategy: Use capital funds.

2. **Goal:** Install new well.
Rationale: To provide adequate water source for firefighting. This well will be used to fill an existing water tank at the firehall.
Strategy: Use capital funds.

Significant Issues & Trends

Issues: Recruitment and Retention; Capital Asset Management; Records Management; and Equipment Standardization.

The sustainability of small volunteer departments is being challenged not only by rapidly increasing legislative requirements and related costs but all the increasing administrative demands which accompany these requirements.

- **Recruitment:** Protective Services will continue to work in conjunction with Communications to enhance advertising programs ensuring maximum exposure on multiple platforms in regard to recruiting.
- **Capital Asset Management:** The Cariboo Regional District is researching options for an asset management program. Protective Services will work with other departments to utilize this to identify possible shortcomings of the firehalls and hire qualified professionals to evaluate the buildings.
- **Records Management:** Protective Services staff will work with VFD personnel to implement and maintain records management for all fire department documents as per mandated requirements.
- **Equipment Standardization:** The standardization of equipment will allow for better operational functionality during emergency response with mutual aid partners. Protective Services will establish a committee to choose standardized equipment and work with Procurement to purchase as budgets allow.
