## PLANNING COMMENTS

---

### Background:

It is proposed to rezone a portion of the 47.54 ha (117.47 ac.) subject property to allow for the subdivision of the lot into two parcels. The subject property is currently zoned Rural 1 (RR 1) in the South Cariboo Area Zoning Bylaw No. 3501, 1999 and is designated Rural Residential 1 in the Interlakes Area Official Community Plan No. 3906, 2004 as shown in Appendix B.

The applicant has requested to rezone a 2.02 ha. (5 ac.) portion of the subject property from Rural 1 (RR 1) to Rural 2 (RR 2) and redesignate that same portion of the subject property from Rural Residential 1 to Rural Residential 2.

The property contains an Aquatic Habitat Development Permit Area along an unnamed creek and around the boundary of Stack Lakes. Before subdivision can be completed an Aquatic Habitat Development Permit will be required.

### Location & Surroundings:

The subject property is located northeast of Stack Lakes and southwest of Wilson Lake. The property slopes gently towards Stack Lakes and is mostly covered by open grassland with some trees and bushes along the lake.

### CRD Regulations and Policies:

*3501- South Cariboo Area Zoning Bylaw, 1999*

#### **5.19 Rural 2 (RR 2)**

##### 5.19.2 ZONE PROVISIONS

(a) LOT AREA (minimum): 2 hectares (4.94 acres)

*3906- Interlakes Area Official Community Plan, 2004*

#### **5.2 Residential Designations**

Rural Residential 2: Parcels that shall have a minimum site area of 2 ha. (4.94 ac.)

- 5.2.6 Applications to re-designate land for additional residential development shall not be considered by the Regional Board, unless the applicant demonstrates through a review of existing residential land available, that the residential stock is insufficient to meet the five-year demand and that the land would be proven capable of supporting residential development, pursuant to Section 5.2.7, below. Where a proposed designation for a maximum of two lots is envisioned, the Regional Board may consider a less stringent supply-demand study.
- 5.2.7 Any applications to re-designate land to a Residential designation, or to increase the density of an existing Residential designation shall require the proponent to prove that the topography is conducive to residential development, that the soils can support on-site sewage disposal, and that there is sufficient availability of groundwater for year-round use.

Rationale for Recommendations:

Planning staff are supportive of the proposed rezoning and Official Community Plan amendment application. The proposed rezoning and OCP amendment would align with many of the surrounding properties. The proposed lot size will also align with the objectives outlined in the OCP such as 5.1.1, to maintain the rural character of the area by permitting a range of lot sizes. The lot will be able to meet all of the zoning requirements of the Rural 2 (RR 2) zone.

Section 5.2.6 of the Interlakes Area OCP requires a market demand study for a proposed designation change in order to create more than two lots and a less stringent supply-demand study for designation changes where a maximum of two lots is envisioned. Planning staff consider the South Cariboo and 100 Mile House Housing Needs Assessment, which was received by the Board of Directors in April 2022, sufficient to demonstrate this supply and demand analysis. The document reports that the Interlakes area has challenges with housing, noting factors that can cause housing price increases. As such, an infill subdivision such as the proposal is supported.

The Ministry of Transportation and Infrastructure (MOTI) has no concerns with the rezoning and OCP amendment application.

The Interior Health Authority (IHA) has not provided comments on this application.

The Electoral Area 'L' Advisory Planning Commission (APC) has voted in support of the proposal. The reasons for supporting the proposal includes the proposed lot is used as a bull pen and would not decrease the agricultural use of the land, there are minimal changes in the permitted residential and non-residential uses for the proposed zone, and provides the potential of increasing overall housing supply in the area by proposing new lots.

The Protective Services Department does not have any concerns with the application as it is proposed. They state that it is the responsibility of the owner/ occupier to comply with the BC fire code.

In summary, planning staff are supportive of the proposed rezoning and OCP amendment application. The proposed zone will align with the proposed OCP designation and allow for the future proposed subdivision of one additional lot. The applicant will be required to comply with the CRD Shoreland Management Policy with respect to sewerage disposal and riparian protection due to the proximity of Stack Lakes.

Recommendation:

1. That Interlakes Area Official Community Plan Amendment Bylaw No. 5489, 2024 be read a first and second time this 26<sup>th</sup> day of September 2024.
2. That South Cariboo Area Zoning Amendment Bylaw No. 5490, 2024 be read a first and second time this 26<sup>th</sup> day of September 2024, and that adoption be subject to the following conditions:
  - i. Adoption of the Interlakes Area Official Community Plan Amendment Bylaw No. 5489, 2024.
  - ii. The applicant offering to enter into and entering into a Section 219 covenant to ensure compliance with the CRD Shoreland Management Policy with respect to sewerage disposal and riparian protection.

Further, that the cost of registration of the CRD Shoreland Management Policy covenant be borne by the applicant.

RESOLUTION

Motioned by Pori Denison, seconded by Gordon Ross...

THAT application with File Number 3360-20/20240028 be SUPPORTED / REJECTED for the following reasons:

- 1) The proposed lot, currently used as a bull pen, does not reduce the crop use of the land. It has provided minimal hay production (5 bales) in the past.
- 2) There is minimal difference in the residential and non-residential uses of the change in zone and/or OCP designation.
- 3) Provides the potential of increasing overall housing in the area by combining the allowed dwellings of the proposed two lots.
