To Whom it May Concern,

RE: CRD Community Works Fund Program Request

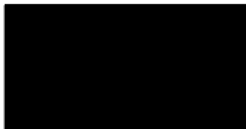

The McLeese Lake Recreation Commission is seeking funding for the repair of the McLeese Lake Recreation Center Roof and would like consideration for a grant from the CRD's Community Works Fund Program.

The roof of the McLeese Lake Recreation Center is quite aged and repair is overdue. The goal to repair the roof has been on our 5 year plan for many years. An updated and modern roof will help to ensure the hall is safe from the elements, is more energy efficient and increases the property value and enjoyment of the Recreation Center for many years to come.

The Commission has sought out consultation and quotes from three providers (forwarded to KMacDonald@cariboord.ca on Dec. 31, 2025). After careful consideration of the materials, gauge, costs, and performance reviews of the companies, we have decided to go with Recovery Roofing for a total project estimate of \$66,570.00. We hope the grant will cover the entire cost of the project.

Thank you for your consideration.

Sincerely,

Malya Senger

Secretary

On Behalf of the McLeese Lake Recreation Commission

The McLeese Lake Recreation Commission respectfully acknowledges that it operates and resides on the traditional lands of the Xat'sull First Nation
