Hello,

The Ministry of Forests is holding a series of Forest Landscape Plan (FLP) public open houses this spring as part of ongoing engagement for the Cariboo region FLP processes.

The purpose of these sessions is to:

- Introduce Forest Landscape Planning, including where we are in the planning process
- Share current information on plan development
- Receive input on landscape values that are important to communities, licensees, stakeholders, and forest users.
- And create an advisory group for future engagement throughout the FLP process.

These open houses are intended to provide an opportunity for participants to learn more about FLPs, ask questions, and provide input that will help inform ongoing planning work.
