

Cariboo Regional District

Alternative Approval Process

The purpose of this report is to show the basis for determining the total number of electors in relation to the Electoral Area J Community Hall Support Service that is the subject of an alternative approval process.

Section 86(3)(c) of the *Community Charter* requires the local government to make a fair determination of the total number of electors of the area to which the approval process applies. In addition, the local government must make available to the public, on request, a report respecting the basis on which the determination was made.

The number of people eligible to be a *resident elector* or a *non-resident property elector* is determined based on those individuals who, when signing an elector response form:

- are 18 years of age or older; and
- are Canadian citizens; and
- have lived in British Columbia for at least six months; and
- live in the area defined for the AAP; or
- own property in the area defined for the AAP for at least the last 30 days (for non-resident property electors only); and
- are not disqualified under the *Local Government Act*, or any other enactment from voting in a local election, or otherwise disqualified by law.

The estimated number of eligible electors within the area defined for the AAP is based on information from various sources as indicated on the following page, and is summarized as follows:

**Estimated total number of eligible electors in the Electoral Area J
Community Hall Support Service Area:**

1,039

Ten percent of the total number of eligible electors is estimated to be:

104

- The number of registered voters in Electoral Area J is **1039** based on information from Elections BC.

1,039 is a fair determination of the number of qualified electors in the Alternative Approval Process voting area.

Approved by a resolution passed by the Cariboo Regional District Board at an open meeting held on the __ day of ____, 2024.
